Report of Principal and School Improvement Council

This has been a very busy year for Bluffton Elementary. We were able to transition into our new Early Childhood Center in December. With this move, we eliminated the need for most of our 36 portables. We have a current enrollment of 945, with roughly 230 at the ECC and 715 in the main building. We are still utilizing 8 portables, but they will not be needed after this year due to the opening of a new elementary school. The 8 outside classes will be able to move into the main building at the end of the year.

With the approval of SIC members, we divided our Palmetto Silver awards fund between animation and a Wii fitness lab.

The Wii fitness lab was established to address our obesity rates from our Fitness Gram reports. The Wii fitness lab was put into place and operational by November. The lab consists of 8 stations of Wii fitness for Dance and Dance Revolution, and 2 stations of stretching/movement activities. The students utilize the Wii lab as a related art special. This has been very successful, with some students seeing a weight loss of over 10 pounds. Students have commented that the lab has helped them understand muscle movements and ways to exercise at home using common everyday items.

The animation lab was also functional starting in November. This lab is very unique as it is the only true curriculum-focused lab in South Carolina. The teachers select a standard that they would like the students to focus on during animation. (For example, the Boston Tea Party.) The students create a storyboard for this standard and receive all curriculum instruction on the standard in the regular classroom. Once they have completed the basic instruction, the teacher signs the class up for the animation lab. The students bring their storyboards to the animation lab and create an animation of the standard. The impact of the animation lab has been amazing. Struggling writers are understanding how to utilize more details, and ESOL/special education students are finding an outlet to express what they truly know. The animation lab was created with input from SCAD (Savannah College of Art and Design). BLES students will be visiting the animation department and sitting in on SCAD's Contemporary Animation Society before the end of the year. As we say at BLES, we don't teach animation but curriculum through animation.

With our movement in the right direction, BLES appreciates the support of community members, parents, teachers, and staff. Working together, we have created a strong educational foundation for our students. Thanks for a great year and your continued support of our students!
